Executive Engineer,
Water Supply Division,
Bangalore.

Sir,

I have the honour to state that the Health Officer, Bangalore City Municipality reports that from the results - received from the Superintendent Public Health Institute regarding some samples of water from the Malleswaram High Level Reservoir, the C & M Station Reservoir, the Low Level Reservoir and the High Level Reservoir near the Palace it is found that the quality is as bad as Hessarghatta unfiltered water with reference to Lactose Fermenters The Range Officer, Chamarajendra Water Supply states that the samples were taken after the bursts in the pipes from Thippagondanahally and that the samples tested were samples of Hessarghatta water filtered in the Jevel Filters but supplied without being chlorinised. I wish I was advised about this change in the supply in time so that I could have notified the public to be careful in using this water especially as there was no chlorination. I request that I may be advised in time about such changes in future

I have the honour to be,
Sir,
Your most obedient servant,

Sd P H.Krishna Rau,
